Description

Established in 2009, ROFMA - The Romanian Facility Management Association - is a professional nonprofit organization aiming to bring together all Romanian specialists in property and facility management in order to develop a unitary vision, both theoretical and pragmatic, at high European level, and to provide educational, informational and legislative support to its members. ROFMA members are legal entities (FM providers of products, equipments, services and solutions, organizations and institutions close to FM, etc.) and individuals (partner members) - FM and related fields specialists.
